CREATE: A Story

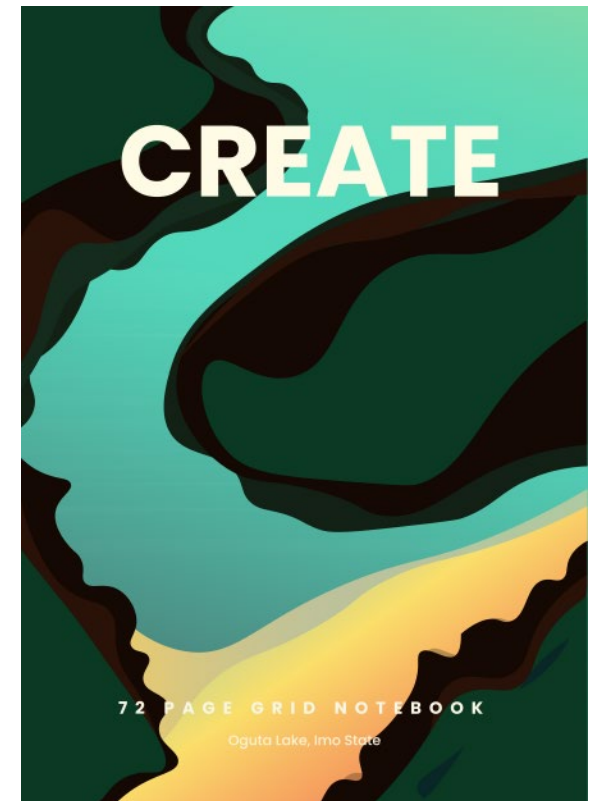

The story of CREATE is one of inspiration, creativity, and execution. It's rooted in encouraging creators to produce their best work.

With the first original Hingeers collection paying homage to interesting landmarks around Nigeria, CREATE by Hingeers is more than a pack of notepads. Lined, dotted, or plain, each one is a tool that helps you fulfil purpose. A confidante that births your ideas in their rawest forms. A partner that encourages you to refine those ideas and make them whole.

With a pack of CREATE, you're a storyteller. A creator.

Customization

Add your company or organization's logo to the iconic Hinge's CREATE pocket notepads — the perfect giveaway for staff, customers, events, and community members.

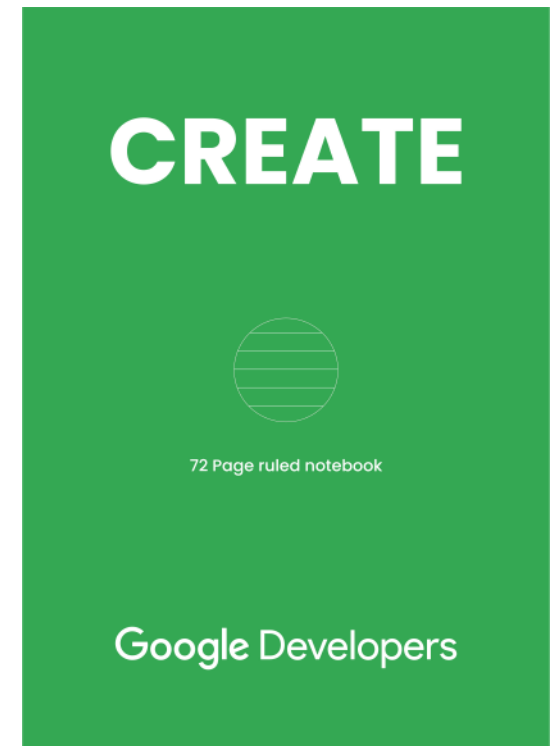

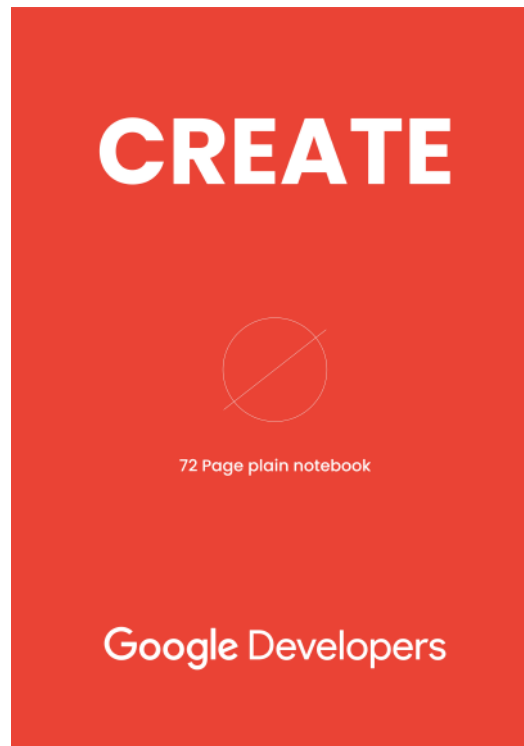

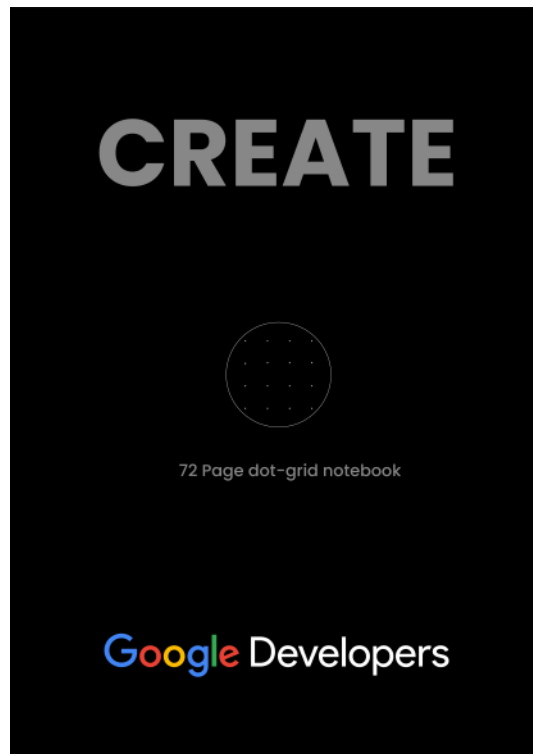

Our notepads aren't just appreciated; they're used over and over, keeping your brand in focus and leaving a lasting impression. The custom notepads can either be made in Kraft covers or multiple colour ways. The minimum quantity for production is 300 pieces.

We do not allow resale of the custom CREATE notepads, as this would conflict with our own retail offerings.
